Suspension may be:

Before a student is suspended out-of-school, the campus director shall consider and apply, if appropriate, alternative in-school placement options that are not to be considered suspension, such as placement in an alternative school setting, reassignment to another classroom, or in-school detention. A student suspended out-of-school shall be placed in a supervised, structured environment in either a home-based school work assignment setting or another appropriate setting in accordance with a plan prescribed by the school administration that provides education in accordance with the supporting regulations. Parents or guardians will be provided a copy of the education plan and will bear the responsibility of monitoring the student's educational progress until the student is readmitted to school. Students suspended from school shall be ineligible to participate in extracurricular activities. Additionally, any student serving suspension during the time of graduation activities shall not be allowed to participate in or attend ceremonies or programs honoring graduates.

SUSPENSION OF STUDENTS (Cont.)

Suspension of students shall be in the following manner:

1. For a suspension of three (3) days or less, the student will be notified verbally, and reasonable efforts will be made to contact his/her parents or guardian and the home school principal, if a high school student, stating the reason of the suspension, the terms of the suspension, and the student's right of a hearing before the superintendent.
2. For suspension from school of longer the three (3) days, written notification will be given to the student, the home school principal, if a high school student, and the student's parents or guardian, if a minor, by certified mail, stating the reason for the suspension, the terms of the suspension and the student's right of a hearing before the superintendent.

When students are coordinating their school day between a local school and Southwest Technology Center, suspension will be the result of the cooperation between the two (2) schools.

No school board member, administrator, or teacher may be held civilly liable for any action, taken in good faith, which is authorized by law under the provisions of this policy.

Appeal Procedure

Any student suspended from the school shall have the right to a hearing before the superintendent.

The student shall have the right to appeal the decision of the superintendent to the board of education. In the event a student desires an appeal to the board of education, the student shall give notice, in writing, to the superintendent of the school within three (3) days after the meeting with the superintendent. The student may then present his/her appeal at the next regular meeting of the board of education. The decision of the board of education is final. If such notice of appeal is not received at the designated time, the suspension shall be considered as final.

NOTE: 70 O.S. §24-104.1 and FERPA provides that a school district in which a student seeks to enroll may request student discipline records, and a school district must provide student discipline records upon request by another school district.
