

JOB PLACEMENT

Every effort is made to assist students with job placement. Job placement is done primarily through the program instructors at Southwest Technology Center. They maintain close contact with the various businesses in our area that can potentially employ our students. Student services has a bulletin board in the student center where employment opportunities are posted. Student services has a bulletin board in the student services office area on which employment opportunities are posted. Job listings through the Employment Securities Commission are available and teachers are encouraged to download them from the "Job Links" website.
