

VENDING MACHINES

The Southwest Technology Center Board of Education has determined that there shall be no installations of vending machines except as approved by the superintendent. The superintendent will have the authority to determine whether such machines may be installed, where they will be placed, what items will be dispensed, and during which hours they might be used. Vending machines are operated as a convenience for students, staff, and patrons. All revenue produced from this source shall be deposited in the designated activity fund as approved by the board of education. Revenues may be spent only on those purposes for which general revenue may be expended.

The district will ensure that students will be provided healthy food options in addition to any foods of minimal nutritional value to which they may have access.
