

**STUDENTS:
ENROLLMENT REQUIREMENTS**

Southwest Technology Center admits all eligible students without regard to race, color, national origin, or religious beliefs. All federal and state guidelines concerning admittance for students receiving aid will be adhered to. Admission requirements may vary according to the program being offered.

In-district secondary students who are enrolled in the eleventh or twelfth grades have first priority in all full-time classes. Secondary students wishing to return for the second year of a two-year program will have priority over first-year students provided they have the instructor's recommendation. In-district adult students will have second priority in full-time classes. Out-of-district secondary students will have third priority, followed by out-of-district adult students. All out-of-district students are admitted on a space available basis.

Secondary Students

Southwest Technology Center admits high school students on the basis of interest, ability, aptitude, and performance in previous school work. Students with a previous history of poor grades, attendance, or adjustments to school may be denied admission. Secondary students below the eleventh (11) grade **may** be admitted under special conditions and when referred by their high school principal and approved by Southwest Technology Center's administration.

Second Year Students

Students wishing to return to Southwest Technology Center the second year must be recommended by their instructor. An instructor's recommendation is based on student attitude, grades, and attendance.

Post-Secondary Students

Any student who is not currently enrolled in high school is classified as a post-secondary student. All programs accredited for post-secondary education award a certificate to students who successfully complete that program. Post-secondary students are expected to follow the school policies and regulations the same as high school students.

Suspensions

A student who has been suspended out-of-school from a public or private school in the State of Oklahoma or another state for a violent act or an act showing deliberate or reckless disregard for the health or safety of faculty or other students shall not be entitled to enroll in this school district until the terms of the suspension have been met or the time of suspension has expired.

This district shall not provide education services in the regular school setting to any student who has been removed from any public or private school in Oklahoma or any other state until the district determines that the student no longer poses a threat to himself or others.
