Aviation Adjunct Instructor

Duties:
• Instructing students is typically done in a classroom, lab and hands on hangar environment while ensuring the students' safety. This will also entail being prepared for each class by planning, organizing, directing and supervising students in developing knowledge, skills and excellent work habits.
• Monitor students use of supplies, materials and equipment.
• Maintain and submit attendance, grades, student evaluation and all other required documentation and reports per established procedures.
• Follow the guidelines of the FAA and all policies and procedures of Southwest Technology Center.

Must possess an FAA Airframe & Powerplant License and be in good standing with the FAA.

Competence in use of computer applications.

Good written and oral communication skills with the ability to follow lesson plans in detail, be timely and organized.

Be a team player with the goal of having successful students.

Southwest Technology Center is an Equal Opportunity Employer.
